

Q500 SSD

kingston.com/Q500

Incredible speeds plus rock-solid reliability.

Kingston's Q500 solid-state drive dramatically improves the responsiveness of your existing system with incredible boot, loading, and transfer times compared to mechanical hard drives. Powered by a latest-gen controller for read and write speeds up to 500MB/s and 450MB/s¹, this SSD is 10x faster than a traditional hard drive¹ for higher performance, ultra-responsive multi-tasking, and an overall faster system.

Also more reliable and durable than a hard drive, Q500 is built with Flash memory. There are no moving parts, making it less likely to fail than a mechanical hard drive. It's also cooler and quieter, and its shock and vibration resistance makes it ideal for notebooks and other mobile computing devices.

Q500 is available in multiple capacities from 120GB–960GB² to give you all the space you need for applications, videos, photos and other important documents. You can also replace your hard drive or a smaller SSD with a drive big enough to hold all your files.

-
- › Fast start-up, loading, and file transfers
 - › More reliable and durable than a hard drive
 - › Multiple capacities with space for applications or a hard drive replacement

TECHNOLOGY

Q500 SSD

FEATURES/BENEFITS

- > **10x faster than a HDD** — With incredible read/write speeds the Q500 SSD will not only increase performance but can also be used to breathe new life into older systems.
- > **Rugged** — Q500 is shock- and vibration-resistant for rugged reliability when used in notebooks and other mobile computing devices.
- > **Multiple capacities** — Available in 120GB, 240GB, 480GB and 960GB capacities, Q500 is designed to suit anyone's needs.
- > **Ideal for desktops and notebooks** — Q500 has a 7mm form factor to fit in a wider array of systems. It's ideal for slimmer notebooks and in systems with limited available space.

SPECIFICATIONS

- > **Form factor** 2.5"
- > **Interface** SATA Rev. 3.0 (6Gb/s) – with backwards compatibility to SATA Rev. 2.0 (3Gb/s)
- > **Capacities²** 120GB, 240GB, 480GB, 960GB
- > **Controller** 2Ch³
- > **Baseline Performance¹**
Data Transfer (ATTO)
120GB — up to 500MB/s Read and 320MB/s Write
240GB — up to 500MB/s Read and 350MB/s Write
480GB — up to 500MB/s Read and 450MB/s Write
960GB — up to 500MB/s Read and 450MB/s Write
- > **Power Consumption**
0.195W Idle / 0.279W Avg / 0.642W (MAX) Read / 1.535W (MAX) Write
- > **Storage temperature** -40°C~85°C
- > **Operating temperature** 0°C~70°C
- > **Dimensions** 100.0mm x 69.9mm x 7.0mm
- > **Weight** 41g
- > **Vibration operating** 2.17G Peak (7–800Hz)
- > **Vibration non-operating** 20G Peak (10–2000Hz)
- > **Life expectancy** 1 million hours MTBF
- > **Warranty/support⁴** Limited 3-year warranty with free technical support
- > **Total Bytes Written (TBW)⁵** 120GB — 40TB
240GB — 80TB
480GB — 160TB
960GB — 300TB

KINGSTON PART NUMBERS

SQ500S37/120G	Stand-alone drive
SQ500S37/240G	Stand-alone drive
SQ500S37/480G	Stand-alone drive
SQ500S37/960G	Stand-alone drive

The SSD is designed for use in desktop and notebook computer workloads, and is not intended for Server environments.

- 1 Based on "out-of-box performance" using a SATA Rev. 3.0 motherboard. Speed may vary due to host hardware, software and usage. IOMETER Random 4k Random Read/Write is based on 8GB partition.
- 2 Some of the listed capacity on a Flash storage device is used for formatting and other functions and thus is not available for data storage. As such, the actual available capacity for data storage is less than what is listed on the products. For more information, go to Kingston's Flash memory Guide at kingston.com/flashguide.
- 3 Controller model may vary.
- 4 Limited warranty based on 3 years or "SSD Life Remaining" which can be found using the Kingston SSD Manager (kingston.com/SSDManager). A new, unused product will show a wear indicator value of one hundred (100), whereas a product that has reached its endurance limit of program erase cycles will show a wear indicator value of one (1). See kingston.com/wa for details.
- 5 Total Bytes Written (TBW) is derived from the JEDEC Client Workload (JESD219A).
